

IV B. Tech I Semester Regular Examinations, November – 2022**CLOUD COMPUTING****(Common to Computer Science and Engineering and Information Technology)****Time: 3 hours****Max. Marks: 75**

*Answer any FIVE Questions
ONE Question from Each unit
All Questions Carry Equal Marks*

UNIT-I

- 1 a) Illustrate the distributed system models and enabling technologies [7]
b) Discuss on Network-centric computing. [8]
(OR)

- 2 a) List and explain the ethical issues in cloud computing. [7]
b) Give a brief note on enriching the 'Integration as a Service'. [8]

UNIT-II

- 3 Describe the cloud computing at Amazon and Google. [15]
(OR)

- 4 a) Explain the Microsoft Windows Azure. [7]
b) Enumerate the concept of software licensing. [8]

UNIT-III

- 5 a) Explain the virtualization structure/Tools and mechanisms [7]
b) Discuss the Virtual machines provisioning and Migration services [8]
(OR)

- 6 a) Describe the layering and virtualization in detail. [7]
b) Explain the darker side of virtualization. [8]

UNIT-IV

- 7 Elaborate on the distributed file systems. [15]
(OR)

- 8 Discuss the general parallel file systems. [15]

UNIT-V

- 9 a) Explain the Amazon Web Services. [7]
b) Discuss the usage of S3 in Java. [8]
(OR)

- 10 a) Describe the Cloud-based simulation of a Distributed trust algorithm. [7]
b) Elaborate on the Cloud service for adaptive data streaming. [8]

IV B. Tech I Semester Regular Examinations, November – 2022**CLOUD COMPUTING****(Common to Computer Science and Engineering and Information Technology)****Time: 3 hours****Max. Marks: 75**

*Answer any FIVE Questions
ONE Question from Each unit
All Questions Carry Equal Marks*

UNIT-I

- 1 a) Explain peer-to-peer systems in detail. [7]
b) List and explain in the Major challenges for cloud computing. [8]

(OR)

- 2 a) Discuss the model concurrency with Petri Nets. [7]
b) Elaborate on the concept of communication protocols. [8]

UNIT-II

- 3 List and explain various Challenges of cloud computing with a suitable example. [15]

(OR)

- 4 a) Describe the HPC on the cloud. [7]
b) Explain the energy use and ecological impact. [8]

UNIT-III

- 5 a) Describe the Management of Virtual Machines for Cloud Infrastructure [7]
b) List and explain the storage virtualization technologies [8]

(OR)

- 6 Discuss the Applications of control theory to task scheduling. [15]

UNIT-IV

- 7 a) Explain the Virtual machine security. [7]
b) Elaborate on the Cloud security risks. [8]

(OR)

- 8 Discuss the Amazon Simple Storage Service. [15]

UNIT-V

- 9 a) Explain the Share Point Services. [7]
b) Discuss the Microsoft Dynamics CRM [8]

(OR)

- 10 Discuss in detail on instances, connecting clients, security rules w.r.t.EC2. [15]

IV B. Tech I Semester Regular Examinations, November – 2022**CLOUD COMPUTING****(Common to Computer Science and Engineering and Information Technology)****Time: 3 hours****Max. Marks: 75**

*Answer any FIVE Questions
ONE Question from Each unit
All Questions Carry Equal Marks*

UNIT-I

- 1 a) Describe the evolution of cloud computing. [7]
 b) Discuss cloud computing interoperability. [8]
 (OR)
- 2 a) Explain any six benefits of software as a service in cloud computing [7]
 b) How does web-based word processing works in cloud computing? [8]
 Discuss in detail.

UNIT-II

- 3 Discuss in detail on Open Source Software Platforms. [15]
 (OR)
- 4 a) Explain the ZooKeeper in cloud computing. [7]
 b) Describe about cloud storage diversity. [8]

UNIT-III

- 5 Explain the resource management and dynamic application scaling [15]
 (OR)
- 6 a) Discuss the stability of the two-level resource allocation architecture. [7]
 b) Elaborate the cloud scheduling subject to deadlines. [8]

UNIT-IV

- 7 Discuss the Apache Hadoop, Big Table, and Megastore. [15]
 (OR)
- 8 Illustrate the storage models, file systems, and database [15]

UNIT-V

- 9 a) Give a brief note on Google App Engine. [7]
 b) Elaborate on the Google Web Toolkit [8]
 (OR)
- 10 a) Explain the Azure Services Platform [7]
 b) Describe the Cloud Application Development. [8]

IV B. Tech I Semester Regular Examinations, November – 2022**CLOUD COMPUTING****(Common to Computer Science and Engineering and Information Technology)****Time: 3 hours****Max. Marks: 75**

*Answer any FIVE Questions
ONE Question from Each unit
All Questions Carry Equal Marks*

UNIT-I

- 1 a) List and explain the advantages and limitations of software as a service. [7]
b) Discuss the Parallel and Distributed Systems. [8]
(OR)
- 2 a) Explain the terms logical clocks, and message delivery rules. [7]
b) Elaborate on the peer-to-peer systems. [8]

UNIT-II

- 3 List and explain the various features of Apache Zookeeper Features. [15]
(OR)
- 4 a) Explain the Google Perspective. [7]
b) Discuss the energy use and ecological impact. [8]

UNIT-III

- 5 a) Explain the Scheduling Map Reduce applications [7]
b) Discusses the Xen and vBlades. [8]
(OR)
- 6 a) Explain the hardware support for virtualization. [7]
b) Discuss the Cloud Resource virtualization. [8]

UNIT-IV

- 7 a) Elaborate on the Evolution of storage technology. [7]
b) Describe the storage models. [8]
(OR)
- 8 a) Explain the file systems and database. [7]
b) Illustrate on cloud service for adaptive data streaming. [8]

UNIT-V

- 9 Explain the Cloud-based simulation of a Distributed trust algorithm [15]
(OR)
- 10 Write a short note on the following: [15]
a) Exchange Online
b) Share Point Services
